EDUCATION

University of Waterloo

Sep. 2024 - Apr. 2029

Honours Bachelor of Mathematics (BMath)

Waterloo, ON

- **Relevant Courses:** Data Types & Structures, Optimization, Multivariable Calculus, Linear Algebra.
- **Extracurriculars:** Actsci, Quant, and Poker Club; PC Case Competition (7th of 75+ teams).
- **Achievements:** President's Scholarship, Euclid & Fermat Math Competitions (Certificate of Distinction).

WORK EXPERIENCE

Data Engineering Intern

Sep. 2026 – Present

Black Ridge

Montreal, QC

- Incoming...
- Learning GCP, BigQuery, data warehousing methods, and data modelling techniques (SCD Types, etc).

Business Development Intern

Jan. 2026 – Apr. 2026

United Grocers Inc.

Toronto, ON

- Built RandomForest model (pandas, NumPy, scikit-learn) to predict grocer growth quota attainment.
- Deployed model via FastAPI REST API with Pydantic validation; added pytest and GitHub Actions CI.
- Maintained invoicing systems and account datasets in Excel; supported factory-tour due diligence.

Digital Product Intern

May 2025 – Aug. 2025

RBC Wealth Management

Toronto, ON

- Managed the Relationship Management Solutions inbox, supporting advisory teams in Salesforce.
- Used Salesforce, SQL, and SOQL to create reports, build dashboards, import/export data.
- Supported Discovery Calls with Investment Advisors, accurately mapping a 9-figure book into Salesforce.

PROJECTS

Collection ADT Implementation - CS234 (Python)

June 2026

- Implemented a Collection ADT in Python using contiguous-memory and double-linked-list structures.
- Analyzed Big-O time and space trade-offs for insertion, deletion, and traversal across implementations.

Open Source Contributor - PyTorch (Meta-maintained)

January 2026

- Improved beginner tutorial clarity by fixing logic, formatting, and grammar in official PyTorch docs.
- Submitted PR through proper GitHub workflow: fork, branch, commit, push, and pull request.
- Gained hands-on experience with open-source contribution processes, including CLA, CI, and PR review.

SKILLS & INTERESTS

- **Languages:** Python, SQL, LaTeX
- **Machine Learning & Data:** pandas, NumPy, scikit-learn, RandomForest, Data Structures & Algorithms
- **Backend & DevOps:** FastAPI, Pydantic, pytest, REST APIs, Git, GitHub Actions, CI/CD
- **Platforms:** Salesforce (SOQL), Confluence, Jira, Microsoft 365
- **Interests:** Bouldering; Fencing; Fishing; Squash; Poker; Catan; Mahjong (MCR); Critiquing Movies
